

Decoding The Financial Implications Of Growth

"Regulatory requirements have become high and compliance is very important. With technology and artificial intelligence, we can take this a notch up"

S Ravi,
Promoter & Managing Partner,
Ravi Rajan & Co. LLP
on 75th CA Day

BUSINESSWORLD

Increased complexities in taxation and regulations, need for compliances, rise of startups, the advent of ESG and newer fields like crypto and digital currencies coming to the fore require to be understood in financial terms for sustained growth, says veteran CA S Ravi, the promoter and managing partner of Ravi Rajan & Co. LLP in this exclusive interview on 75th CA Day
